EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

On 9 March 2010, a proposed amendment in condition for allowance was discussed with Ms. Baerbel R. Brown, Applicants' attorney, in a telephone interview. Authorization for this examiner's amendment was given in a telephone interview with Ms. Baerbel R. Brown on 11 March 2010.

The application has been amended as follows:

- Claim 7 has been amended as listed below.
- Note: For those claims that are neither amended nor canceled as indicated in this Examiner's Amendment, see the amendment filed on 14 December 2009.

7. (Currently amended) A pharmaceutical composition comprising a pharmaceutically acceptable carrier and an effective amount of a compound of structure (I) according to claim 1.

REASONS FOR ALLOWANCE

Claims 1-4 and 7 are pending in the instant application and are found to be allowable.

The following is an examiner's statement of reasons for allowance:

Applicants' arguments and amendment, filed 14 December 2009, with respect to the objection of claims 1, 2 and 7 because they include reference characters that are not enclosed within parentheses, have been fully considered and are persuasive because Applicants have replaced all occurrences of "I" with "(I)". This objection has been withdrawn.

Applicants' arguments and amendment, filed 14 December 2009, with respect to the rejection of claims 2-4 under 35 USC § 112, first paragraph, for lack of scope of enablement, have been fully considered and are persuasive because Applicants have limited the scope of the claims to only those strains which are deemed enabled by deleting the recitation "or artificial" in claim 2. This rejection has been withdrawn.

Applicants' arguments and amendment, filed 14 December 2009, with respect to the rejection of claim 1 under 35 USC § 101, for being drawn to non-statutory subject matter, have been fully considered and are persuasive because Applicants have amended the claims by inserting the recitation "isolated," thereby indicating that the

claimed subject matter is not merely drawn to a natural product, but involves the hand of man. This rejection has been withdrawn.

Applicants' arguments and amendment, filed 14 December 2009, with respect to the rejection of claims 1-4 under 35 USC § 102(b), as being anticipated by Kanbe *et al.*, as evidenced by Singh *et al.*, have been fully considered and are persuasive because Kanbe *et al.* do not disclose an isolated compound of structural formula (I), as recited in the instant claim amendment. This rejection has been withdrawn.

Methods for the isolation of purification of the compound of structural formula (I) from the cultivation of bacterial strains MA7327 and MA7331 are disclosed in the instant Specification. Furthermore, full chemical characterization of the compound of structural formula (I), including NMR, MS and IR data are provided. Hence, the instantly claimed compound and methods for its production are enabled and have sufficient written description in the Specification.

Conclusion

Accordingly, Applicants' amendment and the Examiner's Amendment are sufficient to place the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
